

# CLIMATE IMPACTS IN THE COMMUNITY

SUSTAINABLE LIVING RESEARCH CENTRE

Dr. Yun Gao, Dr. Ensiyeh Farrokhirad, Professor Adrian Pitts and Dr. Xiang Ren  
Sarah Bradshaw, Alexandru Bulbucanu and Andrew Rain

FRIDAY 8 MARCH 2024  
13:00-16:00 PREVIEW

Location: University of Huddersfield HD1  
3DH, BARBARA HEPWORTH building.  
Mezzanine floor

The exhibition aims to showcase understandings of the relationship between cultures of the place, healthy living environments and climate change. One section shows the sharing the challenges associated with lighting, temperature, and humidity in people's home and their neighbourhood. The second section explores how buildings and interiors relate and are interconnected to the lived experiences.

**Arts & Humanities  
Huddersfield**

**Using White Space and Wallpaper**  
The drawings and models have been created by the three White Space artists, who have shared their design ideas and concepts with the public through a series of workshops. The drawings have been created using a combination of hand-drawn sketches and digital illustrations. The models have been created using a combination of hand-drawn sketches and digital illustrations.
