Large Housing Estates (LHE) in Germany

Brief Overview

- Approx. 4 million apartments for 8 million inhabitants
- Construction in West Germany since 1960s, in East Germany since 1970s to overcome the great housing shortage after the Second World War
- Industrial housing construction by prefab elements
- In former GDR, 23% of the population lived in LHE with at least 2.500 ap., in the FRG (old) only 1,7%
- Largest estates in East-G: Berlin-Marzahn 40.000 ap.
in West-G: Munich-Perlach 20.000 ap.

11 Surveys

LHE Leipzig-Grünau

- 1976 to 1989: 85.000 inhabitants in 35.000 apartments
- 1990s and 2000s: Housing vacancy 20%, demolition of 6.800 ap.
- Since 2010: 45.000 inhabitants, housing construction

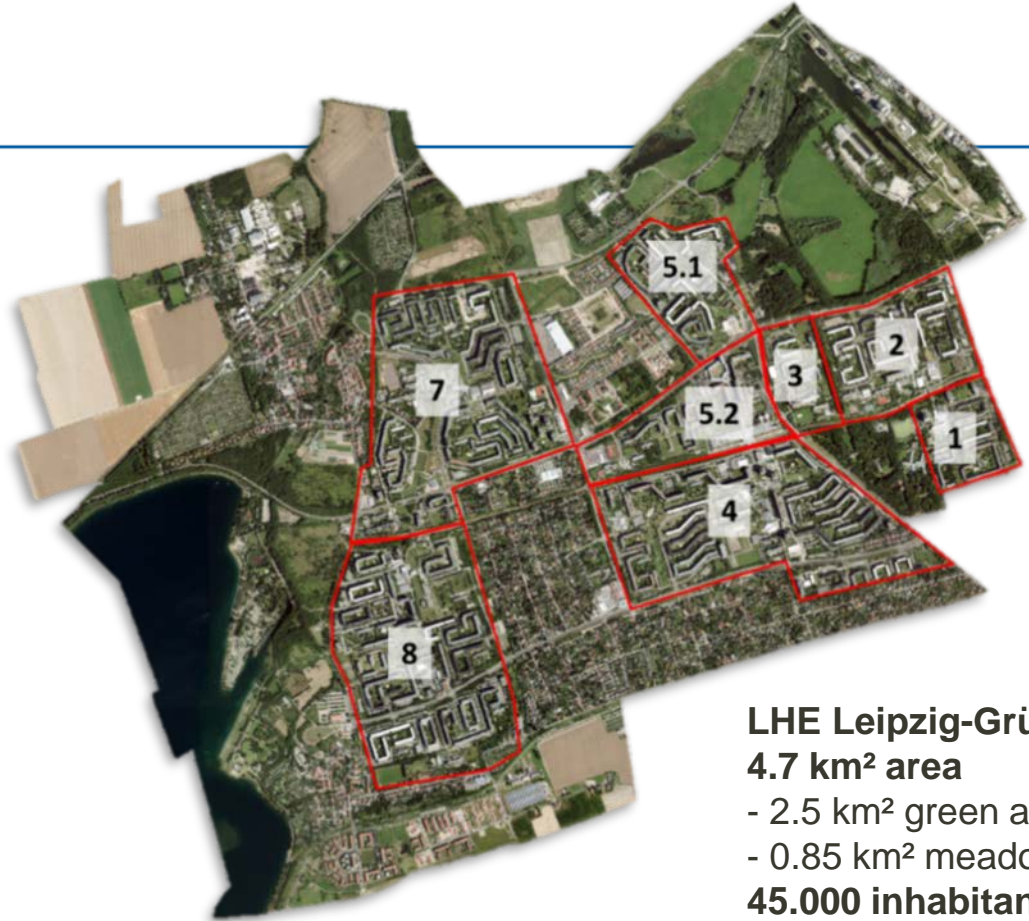

Geographical features

City of Leipzig

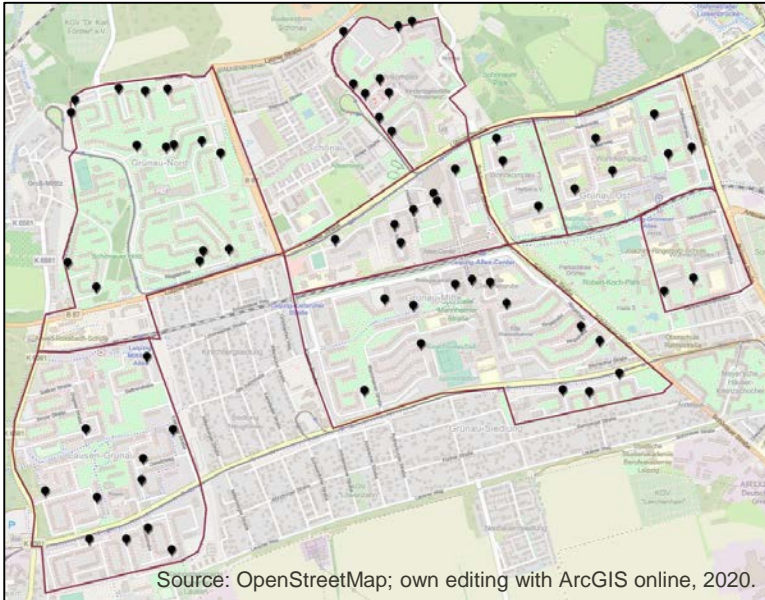

297.8 km² area
616.000 inhabitants

LHE Leipzig-Grünau
4.7 km² area
- 2.5 km² green area
- 0.85 km² meadow
45.000 inhabitants

Methodology

- **Personal distribution of 1.000 questionnaires from June 26 to July 18, 2020 – Response rate: 73%**
- Expert interviews with 13 housing enterprises, spring 2020
- Focus groups and interviews with migrants, June-July (Syria, Iraq, Afghanistan)

Stadteilräten, Quartiersmanagement, GRÜN-AS, Quartiersrat, AG Wohnungswirtschaft,
Leipziger Modellschule e.V., „Grünau bewegt sich“

Die Fragebogenerhebung wird durch die Stadt Leipzig unterstützt.

Dieser Fragebogen wird amgegen Uhr wieder abgeholt.

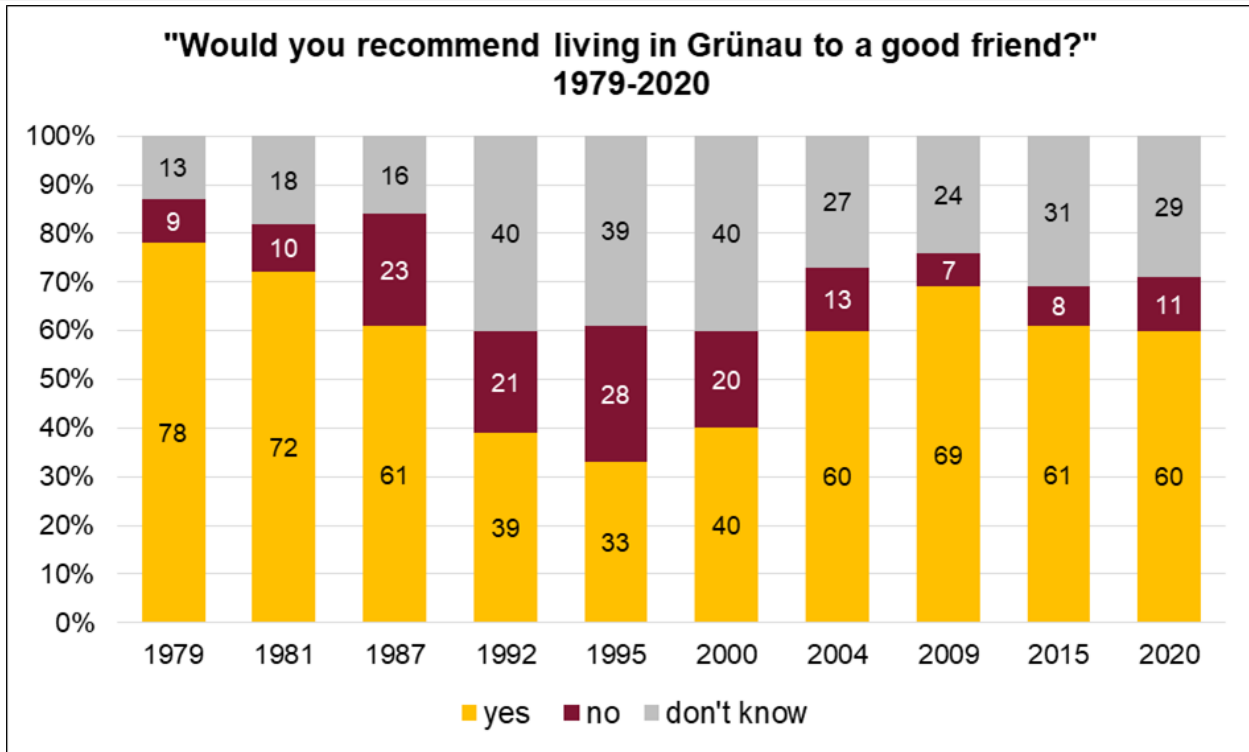

- 18 pages
- 61 questions

Kabisch, S., Pößneck, J. (2024) Wohnen mittels Langzeitstudien erforschen. Zur Perspektive der Bewohner:innen auf die Dynamik des Wohnens. In: Meuth et al. (Hrsg.) Wohnen erforschen, forthcoming

Building monotony versus diversity

Image

- Indicator serves as comprehensive assessment
- Strong alterations: appreciation, decline, upgrading
- High level of uncertainty concerning decision-making

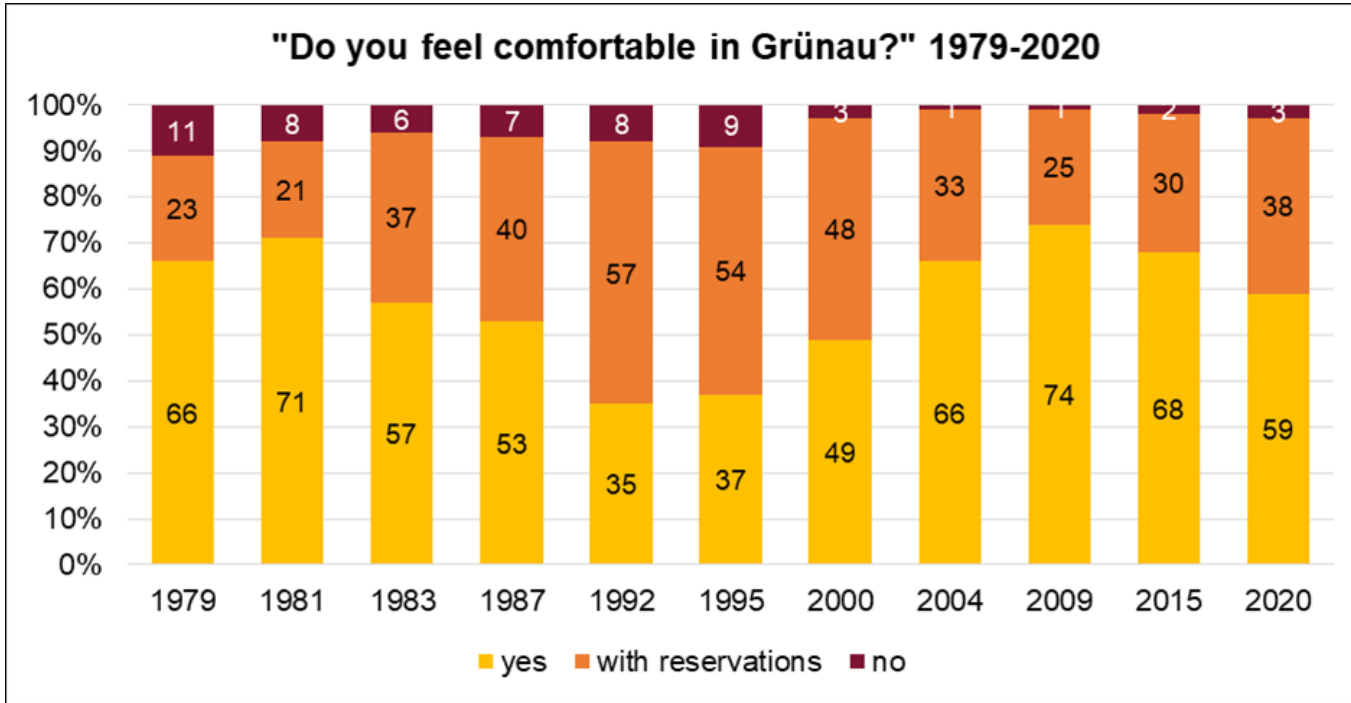

Kabisch, S., Pößneck, J. (2022) Various images versus the stigma of LHE: The Leipzig-Grünau example. disP-The planning review 58(1), 36-48

Residential satisfaction

Kabisch, S. et al. (2021) Measuring residential satisfaction over time: results from a unique long-term study of a large housing estate. In: Housing Studies, DOI: 10.1080/02673037.2020.1867083.

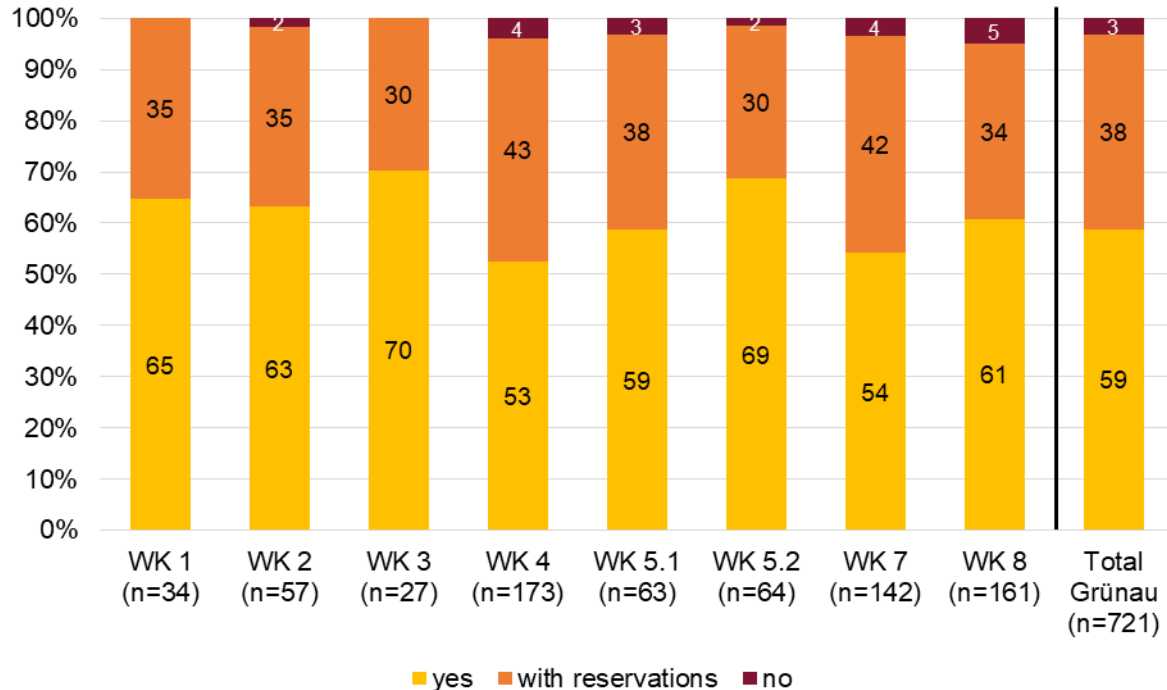

„Do you feel comfortable living in Grünau?“ in long-term perspective

- High level of acceptance
- Share of acceptance with constraints is increasing
- Positiv: Large green and recreation spaces, calm, infrastructure facilities, affordable rents

„Do you feel comfortable living in Grünau?“ - according to housing complexes in 2020

Feeling comfortable in Grünau
according to housing complexes

- Distinct differences between the housing complexes
- Wks 4 und 7 most critical
- Reasons (open question):
 - Fear of crime
 - Deteriorated social conditions
 - Noise
 - Litter pollution
 - Reference to the large number of migrants

Kabisch, S. et al. (2018) Local residential quality from an interdisciplinary perspective: Combining individual perception and micrometeorological factors. In: Kabisch, S. et al. (Eds.) Urban Transformations, Springer, Cham, 235-256

Socio-demography

Age groups in long-term perspective

1986

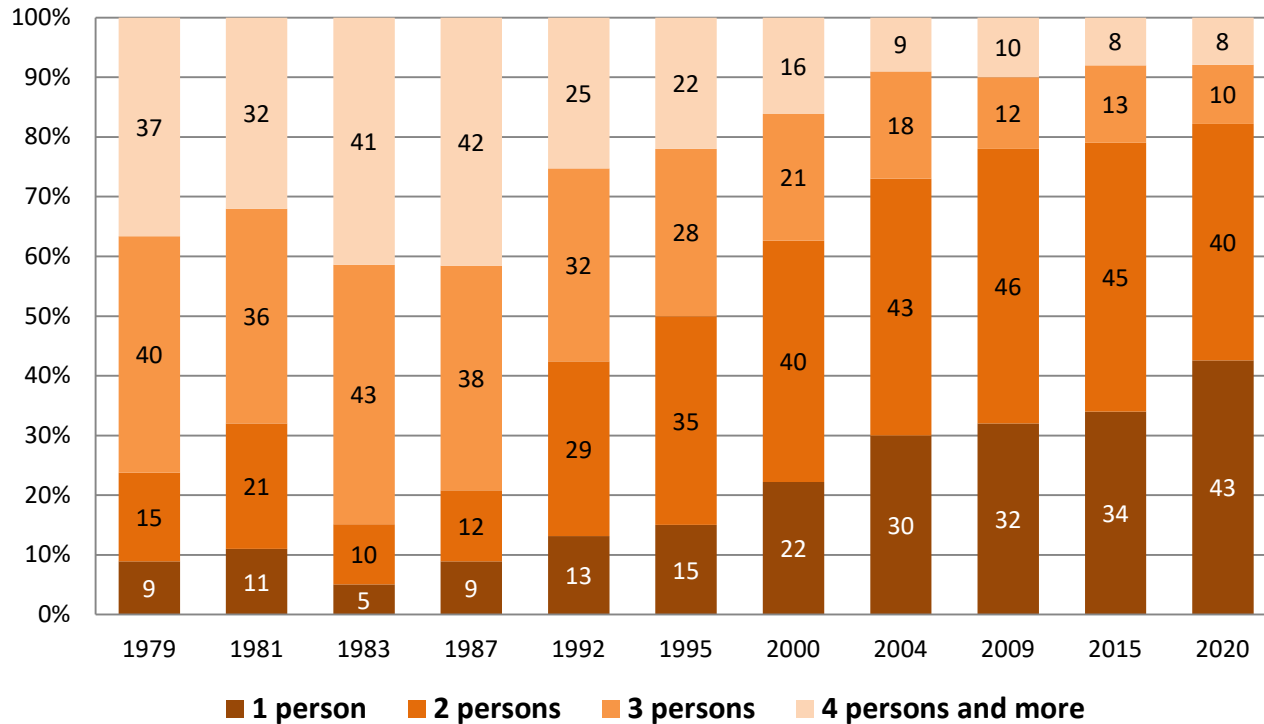

2012

2020

Household groups in long-term perspective

Household Size 1979 - 2020

Importance of “chat benches” close to the apartment

- Aging
- Loneliness
- Health problems
- Remain in apartment
- Unnoticed deaths

Professional training in long-term perspective

Share of graduation level 1979-2020

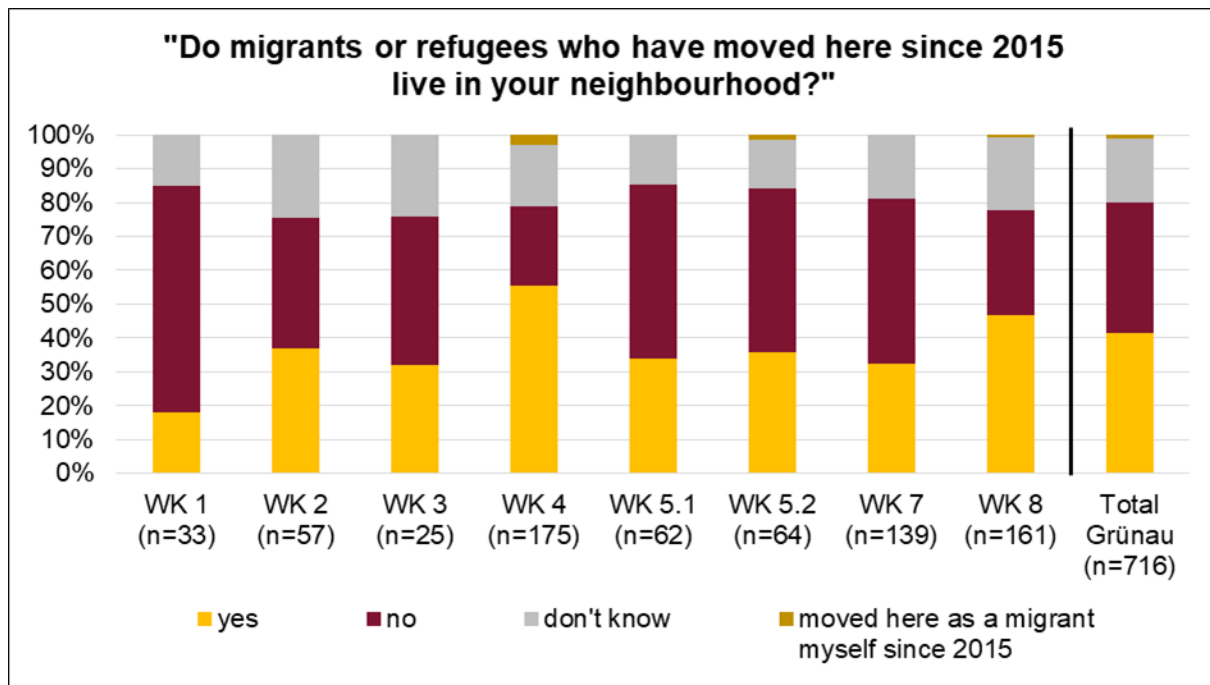

- Share of university degree still high
- Strong correlation between university degree and age
- Corresponding: the older the respondents, the higher the incomes

Living together with migrants

Migrants as new neighbours

District	2015	2020	Increase
Grünau-Ost (WKs 1, 2, 3)	8,3%	12,2%	+ 3,9
Grünau-Mitte (WKs 4, 5.2)	19,2%	27,6%	+ 8,4
Schöнау (WK 5.1)	8,7%	12,4%	+ 3,7
Grünau-Nord (WK 7)	9,9%	19,5%	+ 9,6
Lausnau-Grünau (WK 8)	7,8%	15,6%	+ 7,8

- **59% of the respondents indicate no contact with migrants (arrived 2015/2016)**
- **Contact areas: playgrounds, schools, kindergartens, neighbourhood**

Haase, A.,..., Kabisch, S. (2020) Leipzig's inner east as an arrival space? Exploring the trajectory of a diversifying neighbourhood. *Urban Planning* 5(3), 89-102

Migrants' perspective on their living conditions

Key subjects:

- Language problems (primarily speaking, only few offers in Grünau to learn German)
- School and kindergarten inclusion of kids
- Fear and insecurity, racism in every-day life
- Worry about contacts of kids with drug dealers
- Criticising litter pollution
- ...

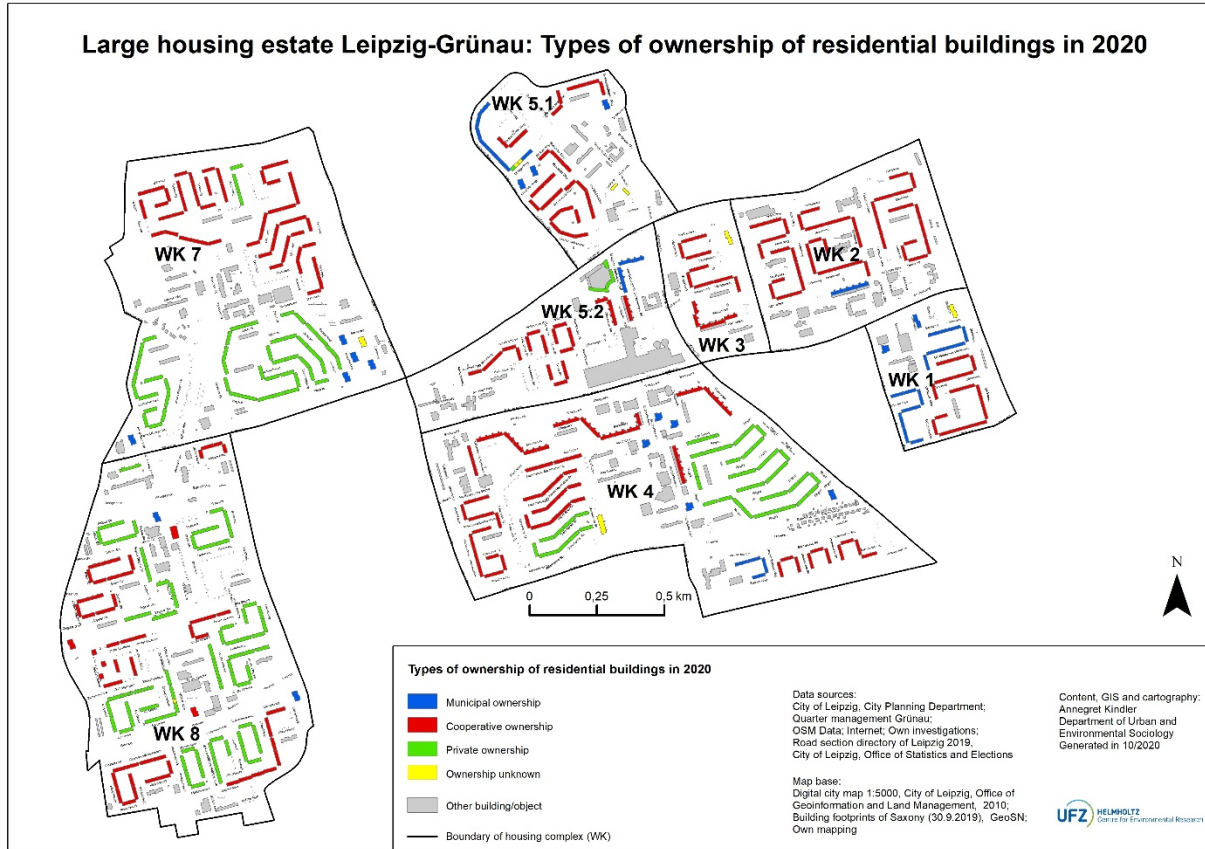

- Migrants identified the same issues and problems as those expressed in the survey
- To push integration, diversified opportunities to contact each other, are required
- Adults as well as children and adolescents need support (esp. after Covid-19 pandemic)

Homeownership within the estate

Type of Homeownership

Large housing estate Leipzig-Grünau: Types of ownership of residential buildings in 2020

25 Housing enterprises

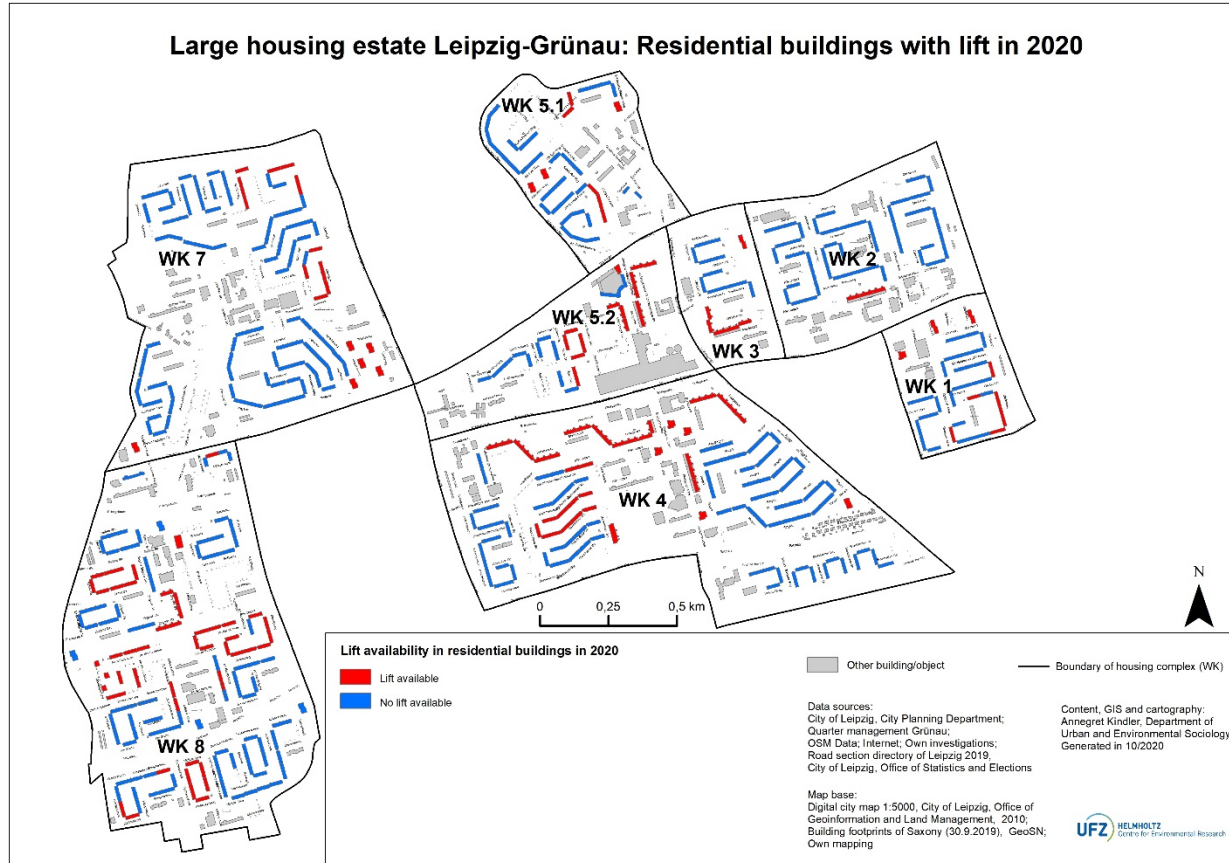

- 1 LWB (municipal)
- 8 Housing cooperatives
- 16 Private enterprises
- Very few owner-occupied dwellings

Dominance of six-storey buildings

Large housing estate Leipzig-Grünau: Number of storeys of residential buildings in 2020

Availability of lifts – very few in six-storey buildings

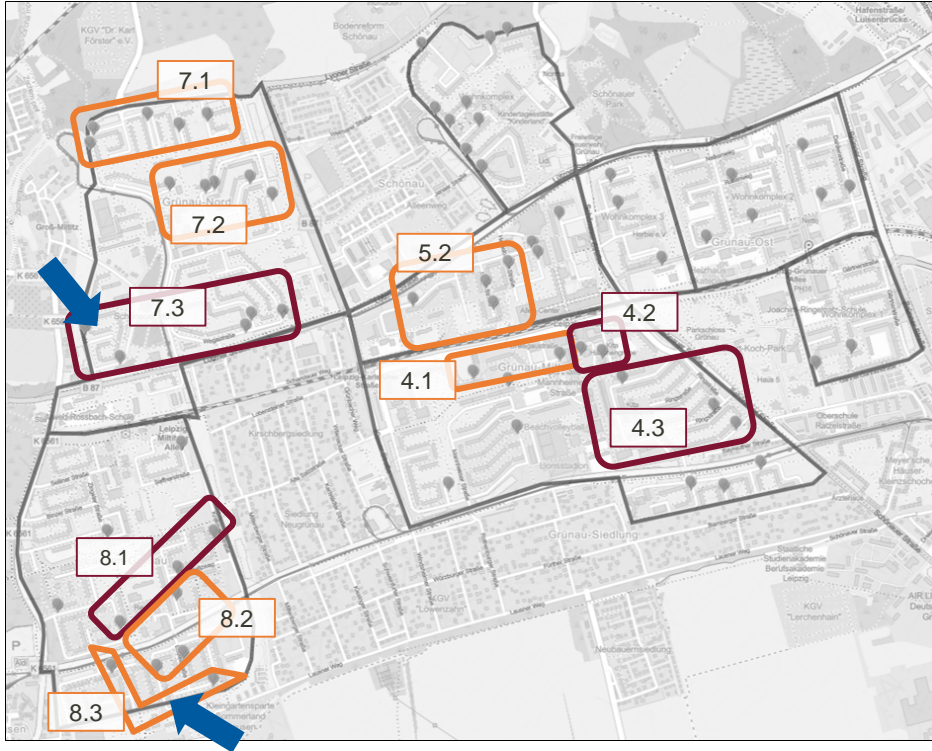

Many six-storey buildings
without lift

**Coincidence of physical
and social features**

- apartment characteristics
- renting strategies
- social characteristics
- housing satisfaction

Small-scale spatial assessment to take targeted decisions

Summary and conclusions

- Residential satisfaction fluctuates over time and varies spatially within the estate.
- Identified small-scale problematic spaces should not transfer to the entire estate.
- Particular attention must be paid to ageing households, as they face challenges such as isolation and loneliness.
- Ongoing generation change and its consequences for the socioeconomic balance require attention.
- Respectful public reporting on the estate and its residents is essential to avoid stigmatisation.
